

274-DLIT-GRL DLIT Grill Mounting Bracket

1. Install the rubber grommet into the rectangular Backing Plate.

2. Place the backing plate behind the vehicle grill and the Front Mounting Plate in the front of the grill.

3. Using the hardware provided, secure the Backing Plate to the Front Mounting Plate, pinching the grill between them.

4. Route the wires through the Front Mounting Plate, the vehicle grill, and the grommet.

5. Use the screws shipped with this mounting bracket to mount the light to the threaded inserts in the Front Mounting Plate and make electrical connections according to the instructions that came with your light.
