

NEW**M-TECH® DL35-CV - LED REAR DECK LIGHT SYSTEM**

DL35-CV

DL35-CV for mounting over the rear brake light in Ford Crown Victorias

The STAR M-Tech® LED DL35-CV interior mount rear deck light system is designed specifically for Ford Crown Victorias. It fits over the rear brake light for quick and easy installation - "No Drill Mounting". The DL35-CV M-Tech® LED light system offers the latestest incorporation of high efficient optics for extremely wide light distribution. It offers 35 customer selectable flash patterns, flash pattern select wire, selectable Day/Night mode, reverse polarity protection, and auto-voltage adjustment (10V - 16V DC). The circuitry is encased in a durable ABS plastic housing that includes a flashback reduction hood. Rated for up to 100,000 hours of use with an extremely low amp draw. The DL35-CV is shipped complete with a 15' wire harness, mounting hardware, and instructions.

Specifications:

Size:	3"H x 21"W x 7"D
Weight:	3 lbs.
Voltage:	10V - 16V DC
Amp Draw*:	0.8 Amps Max
Color Combinations:	Single color for each M-Tech® LED head Amber, Blue, Green, Red, White
Approvals:	SAE Class1 Red, Blue, Red/Blue (See instruction sheet for applicable flash patterns)

*Amp draw will vary depending on the color of the LED heads used and the flash pattern selected.

DL16 SERIES - ADJUSTABLE REAR DECK LED LIGHT SYSTEMS**NEW**

DL16V

DL16V-6

DL16

expandable
up to 8-1/2"

DL16 series interior mount rear deck light system is designed to fit over most vehicles with third brake lights with the ability to expand up to 8-1/2". These light systems are also height adjustable from 1/2" to 1-1/4" for maximum installation flexibility. Specifically design models are available for Ford Crown Victorias (DL16-CV, DL16V-CV, DL16V-6CV) Quick and easy installation - "No Drill Mounting". Choose from our standard LED models or high intensity STAR Generation-3 LED versions. 4 or 6 LED heads are mounted in a non-reflective powder coated, lightweight, aluminum housing that incorporates a flashback reduction hood. They offer 35 customer selectable flash patterns, flash pattern select wire, selectable Day/Night mode, reverse polarity protection, and auto-voltage adjustment (10V - 16V DC). Rated for up to 100,000 hours of use with an extremely low amp draw. The DL16 Series is shipped complete with a 15' wire harness, mounting hardware, and instructions.

Specifications:

Size:	4-Head: 3"H x 21"W x 7"D
	6-Head: 1-7/8"H x 20-1/2"W x 5-3/4"D
Weight:	4 lbs.
Voltage:	10V - 16V DC
Amp Draw*:	DL16V & DL16V-6: Less than 1 Amp
	DL16: 1.6 Amps
Approvals:	DL16 ONLY: SAE J595, SAE J1318, Class 1, and California Title 13 for RED & BLUE (See instruction sheet for applicable flash patterns)
Color Combinations:	Amber, Blue, Green, Red, White

*Amp draw will vary depending on the color of the LED heads used and the flash pattern selected.

All DL16 Series lights are expandable up to 8-1/2" to fit around third brake lights
