FEATURES & BENEFITS

- Ultra Thin profile
- Tri-Color eighteen super bright Star Generation V LEDs (Tri-color)
- Eighteen different selectable flash patterns in either of two phases
- Built in ambient light sensor for optional Auto Dim
- Programmable cruise mode (can be set for either to override other Enable lines, or be overridden)
- Programmable steady burn mode for any color(s)
- Current limit protection over entire operating voltage
- Three independent enable lines, one for each color
- Programmable options for each enable line include pattern, phase, multi-color activation, steady burn, and cruise
- Easily programmed with either an Android or iPhone smartphone using our downloadable app or by using the included wires

- S-Link System 2.0™ synchronizing capabilities with other Star LED units (up to 10 units)
- Robust design utilizing a heavy duty die cast aluminium base
- Can be mounted to just about any flat surface
- Dimensions: 1" H x 4 3/16" W x 25/26" D
- Voltage: 10-30V DC
- Amp draw: 0.75 amps
- Tri Color:
- Dual Color:
- Approvals: SAE Class I, available where applicable
* approvals only apply when properly configured

| PART | DESCRIPTION |
|---------------|---------------------------------------|
| DLITMC-*** | Tri-color eighteen array LED head |
| 274-DLIT-RL | License plate bracket for two DLIT's |
| 274-DLIT-RT | Adhesive bracket for DLIT's |
| 274-DLIT-LPB4 | License plate bracket for four DLIT's |

| PART | DESCRIPTION |
|-------------|------------------------------------|
| 274-DLIT-45 | 45 Degree bracket for DLIT's |
| 274-DLIT-U | Universal bracket for DLIT's |
| 274-DLIT-W | Window adhesive bracket for DLIT's |
| 30019-314 | Shim Kit |
